Dear Delegates and all Gliding Friends,

EASA Season opener webinar – Gliding on Wed 23rd March 2022 at 19.00 CET

Surely we are all looking forward to a spectacular 2022 gliding season ?

Before we get down to the business of flying, it is always sensible to blow away the cobwebs of winter, which this year have been almost certainly been added to by various COVID-related interruptions to our normal routines. In particular, it is very timely to bring a real focus onto key safety issues. In this respect, the EGU is delighted to announce that a **glider-specific “season opener”** event will take place on line, **at 19:00 CET on Wednesday 23 March 2022.**

This is a part of a very welcomed and new initiative from EASA to host safety-related season opener events for all major “general aviation” environments.

The session will last around an hour and will be an informal discussion addressing a number of key topics that are particularly relevant to glider pilots.

People can register via the Webex at this link here:

<https://easa-webmeetings.webex.com/easa-webmeetings/j.php?RGID=r6773717b3db5af1918f4b77b4578d72e>

also they can watch through the **EASA Together4Safety** Youtube instead:

<https://youtu.be/rouYJj2nhn8>

We look forward to meeting many gliders pilots and others from across Europe for what we hope will be a thought-provoking and instructive on-line session.

Please feel free to distribute this to all your gliding colleagues !

With best regards,

EUROPEAN GLIDING UNION

Mika Mutru
General Secretary
